The "Herisson" is made of 2 rivulets which takes its source in the beautiful waters of Bonlieu's and Ilay's lakes, it is running down the narrow valley to throw into cantilevers to create wonderful waterfalls and is finishing its course in the 65 meters munificent drapery of the "Eventail".

Magical place where you can find rainbow trout swallowing midges and blue, green and gold dragonflies, in shaded and calm water.

Historical river, witness what Captain Lacuzon did to stay "Franc-comtois" and not become French and who was hidden, with its men, in a cave located at the bottom of the "Grand Saut"

For the last few centuries, needy people made of weavers, millers, nail-makers were settled in forges and mills which took their force into the tumultuous water of this river running down the narrow valley.

We wish you to discover this unforgettable outing of the "Pays des Lacs" core of which the "Eventail" waterfall, situated at 400 meters of our camping, is the most beautiful jewel.
